**Improving
well-being
and restoring
motion**

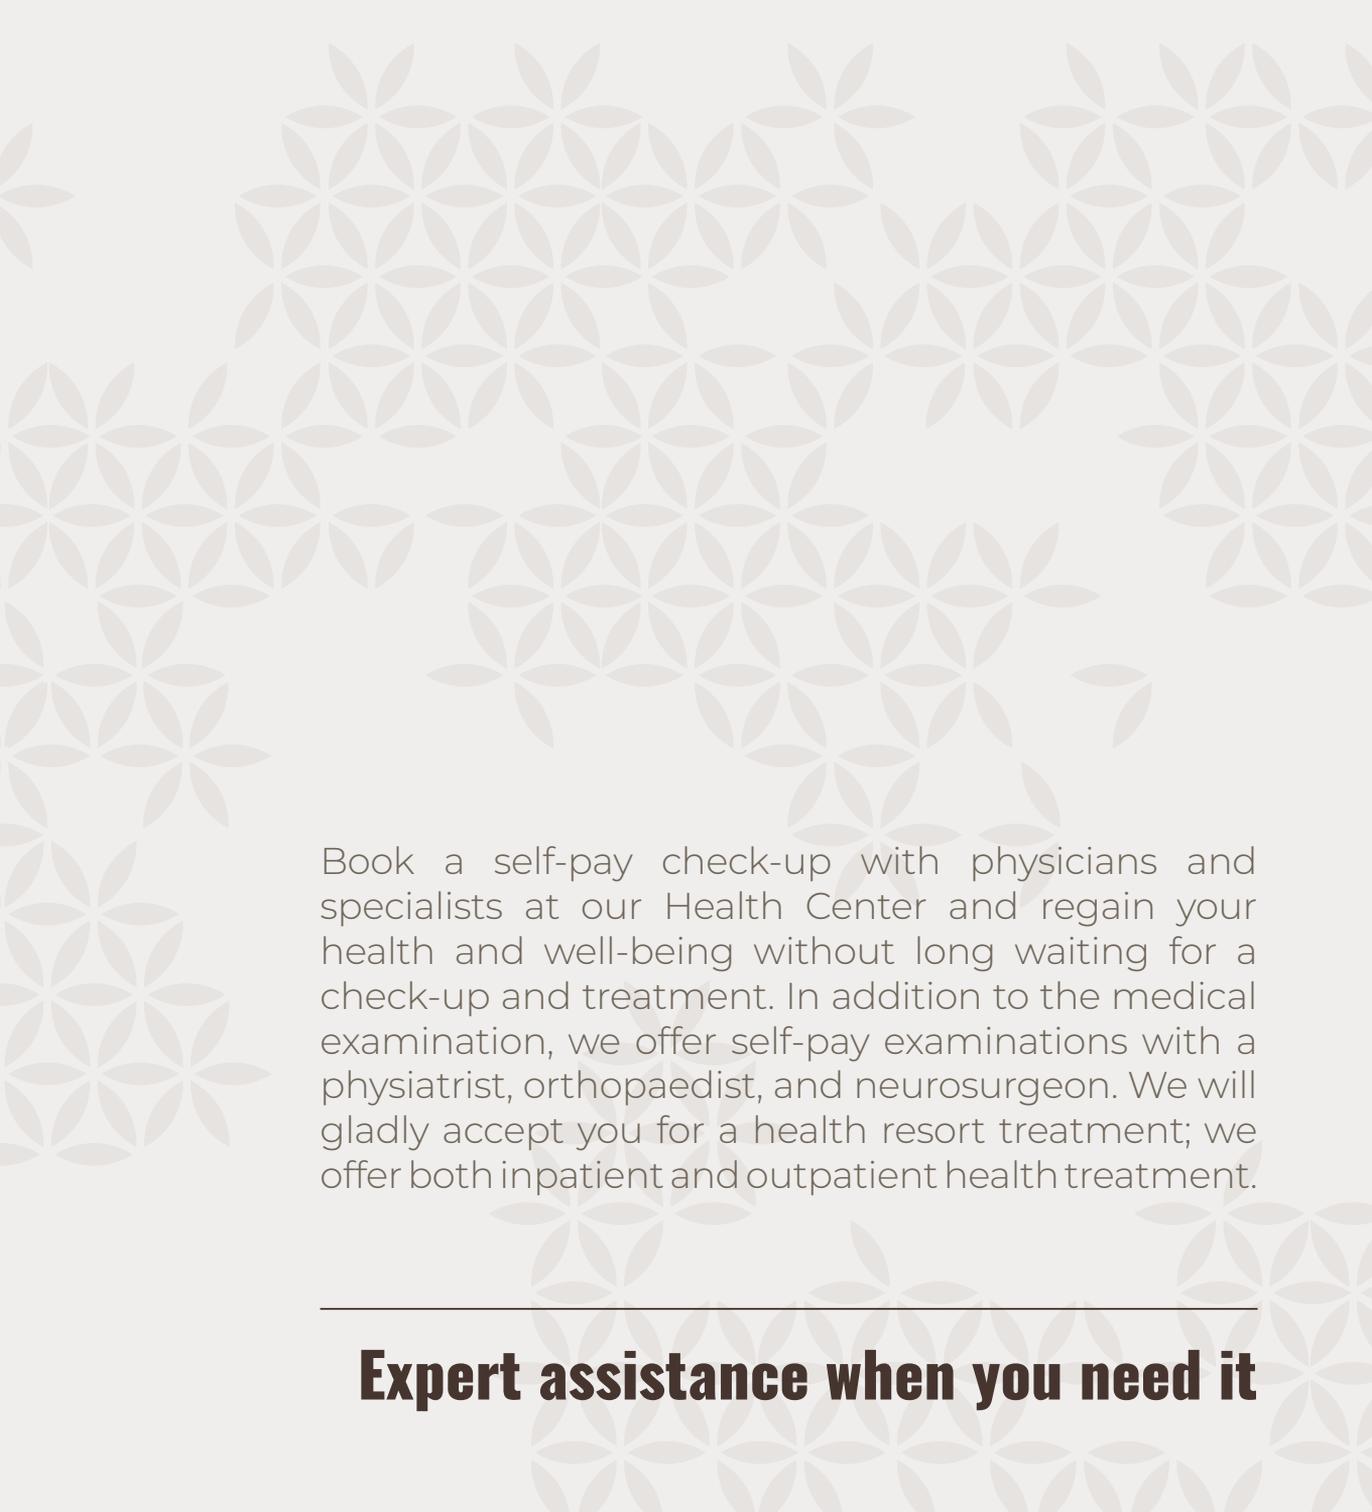

Health is energy and well-being. It is one of the greatest values and the source of life quality. Therefore, at Health Center Olimia, we put you and your health first. Together with our experienced experts, we improve your well-being and restore the most important thing – your motion.

In pain management, we help ourselves with all the renowned manual techniques of experienced physiotherapists and modern technology. Your body is also taken care of by the most valuable sources of nature – water, mud, and oxygen.

Visit Health Center Olimia when you need a quick check-up with a specialist physician, when you want to relieve pain after injuries and surgeries and exercise your body. Try our water baths, Fango wraps, Carbofit therapy and house massages that provide relaxation and regeneration. We also offer nutritional counselling, as we believe that proper nutrition is an important source of health.

Book a self-pay check-up with physicians and specialists at our Health Center and regain your health and well-being without long waiting for a check-up and treatment. In addition to the medical examination, we offer self-pay examinations with a psychiatrist, orthopaedist, and neurosurgeon. We will gladly accept you for a health resort treatment; we offer both inpatient and outpatient health treatment.

Expert assistance when you need it

PHYSICIANS AND TREATMENTS

Consultation with a physician 40,00 €

First examination with a specialist doctor with the result (physiatrist, orthopaedist, neurosurgeon) 80,00 €

Re-examination by a specialist doctor (physiatrist, orthopaedist, neurosurgeon) 50,00 €

Collagen injection 70,00 €

Package 5x injection of collagen into the joint 315,00 €

Package 7x injection of collagen into the joint 390,00 €

Package 10x injection of collagen into the joint 525,00 €

Collagen is the basic building block of connective tissues (skin, joint and muscle envelopes, ligaments, tendons). It is renewed very slowly, and the lack thereof is one of the causes of wear of the joints, spine, and soft parts around the joints. The addition of collagen to the joint and around it helps in the treatment of degenerative changes in the knees, shoulders, hips, tennis elbow, spine, nerve irritation and sciatica.

Injection of collagen into the joint with physiotherapeutic treatment 15 min 94,00 €

Package 5x injection of collagen into the joint with physiotherapeutic treatment 15 min 395,00 €

Package 7x injection of collagen into the joint with physiotherapeutic treatment 15 min 510,00 €

Package 10x injection of collagen into the joint with physiotherapeutic treatment 15 min 700,00 €

Additional physiotherapeutic treatment ensures greater effectiveness of the method.

Package 7x application of collagen with ultrasound and physiotherapeutic treatment 15 min 450,00 €

Package 10x application of collagen with ultrasound and physiotherapeutic treatment 15 min 600,00 €

Ultrasound allows the medicine to be absorbed through the skin, so collagen can be introduced directly into the affected joint.

Injection of hyaluronic acid into the joint 200,00 €

The production of hyaluronic acid, a “lubricant” for joints, decreases over the years, the cartilage on the surface of the joint begins to thin and weaken, and the wear of the joints begins. The solution of highly purified sodium hyaluronate promotes the renewal of cartilage in the joints, helps in damaged meniscus in knee joint and after arthroscopic procedures.

ECG scan 20,00 €

ECG scan with medical consultation 45,00 €

Wound redress 20,00 €

Ear rinsing 25,00 €

according to Dr. Vodder

Manual lymphatic drainage 40 min 60,00 €
according to Dr. Vodder

The goal of manual lymphatic drainage is to balance fluids in the body. With a special therapeutic method, excess liquids are flushed from the intercellular spaces, thus cleaning the waste products. It is used to reduce swelling after injuries, surgeries, sports injuries, rheumatic diseases and to improve resistance.

Mechanical lymphatic drainage 25,00 €

Mechanical lymphatic drainage (by means of an apparatus) affects a better lymph flow and the cleaning of waste products from the intercellular spaces.

Vacusac – vacuum therapy 25,00 €

The under pressure generated by the apparatus and the cuffs improves peripheral circulation. Extremely useful in circulatory disorders, problems with metabolism, post-traumatic and lymphatic system problems.

ACUPUNCTURE

Examination by an acupuncturist 35,00 €

Acupuncture 35,00 €

Examination by a physician one therapy 60,00 €

Examination by a physician three therapies 100,00 €

Examination by a physician five therapies 150,00 €

Acupuncture eliminates painful syndromes in the cervical, thoracic, and lumbar parts of the spine, in intercostal neuralgia, rheumatoid arthritis, headaches, hip and knee pain, tennis elbow pain and wrist passage syndrome.

Nutritional consultation and measurements

Guided Tanita method with dietitian 20,00 €

Tanita is a method for the analysis of bioelectric impedance or body composition. In addition to the baseline body weight, the percentage of body fat, bone mass, visceral fat, muscle mass, body water percentage, metabolic assessment of age and physique and the DCI value (daily energy intake or Daily Calorie Intake) are measured.

Nutrition consultation with dietitian 50,00 €
45 min

Based on the composite questionnaire and basic data (body weight, height, and age), the dietitian proposes optimal nutritional guidelines that ensure a high level of well-being and reduce the chances of developing diseases.

Measurement of body composition + guided Tanita method with dietitian + nutritional counselling 70,00 €
45 min

A guided overview of basic anthropological measurements includes the calculation of your body height, waist circumference and skin fold measurements, which are crucial in the overall treatment of body composition. They are supplemented by the Tanita method. Based on the measurements, the dietitian advises a diet that will ensure well-being and reduce risk factors for various diseases.

Food intolerance test 165,00 €

Food intolerance is a negative reaction of the body to a particular food or food group. Due to the reduced possibility of absorption and metabolism of foodstuffs, health problems or various consequences may occur. The test result is a detailed list of foods that cause discomfort for all those who do not suffer from confirmed allergies or diseases and do not recognize the cause of their problems.

Food intolerance test + nutritional consultation 200,00 €
45 min

A test for intolerance in combination with nutritional treatment, where the dietitian informs you in more detail and advises you about the change in your eating habits based on the obtained results.

Monthly guided eating programme: guided Tanita method + consultation + 4-week menu + 2 nutritional consultations + blood tests 300,00 €

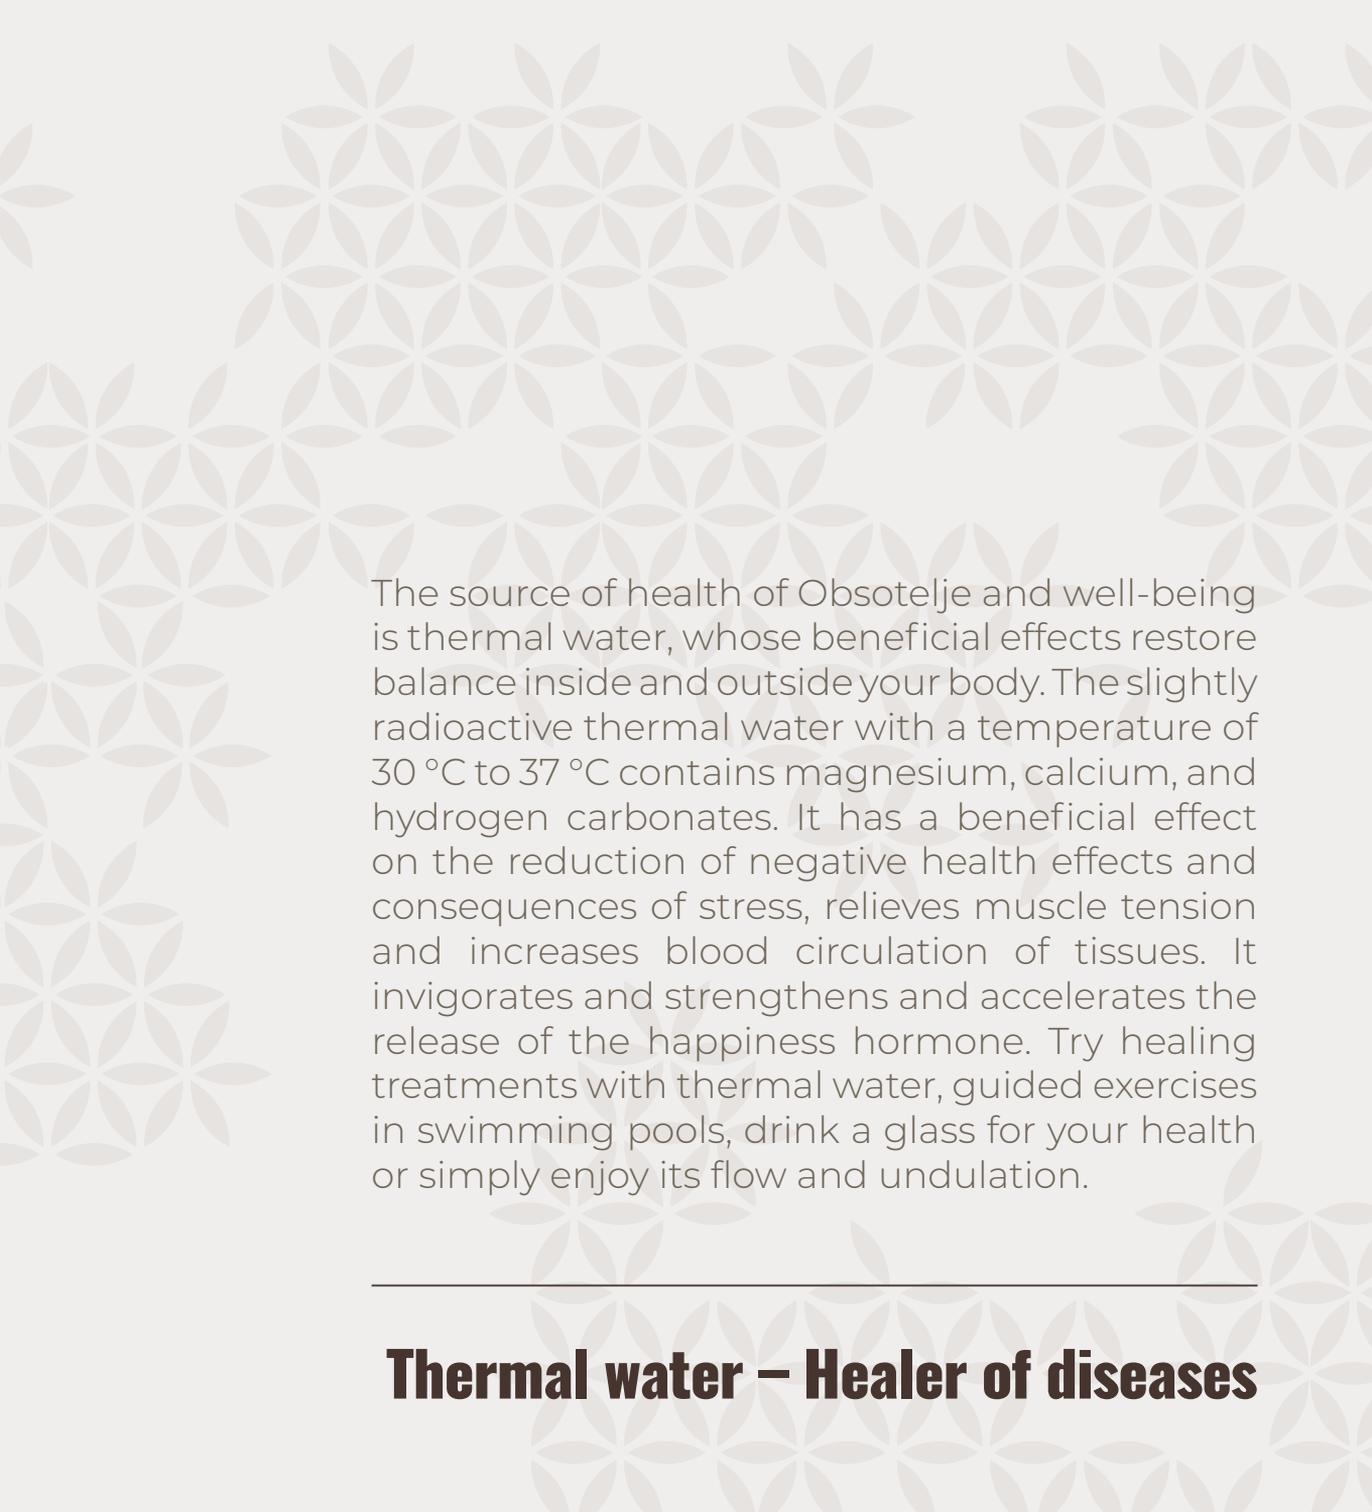

The first consultation with a dietitian includes measurements using the Tanita method, an explanation of the results obtained and a calculation of the optimal nutritional value of macro- and micronutrient intake. The blood sample taken shall be used to check the status of electrolytes, enzymes, and blood cells, in order to adjust nutritional counselling. The dietitian determines a 4-week personalized menu with selected foods that represent the circle of healthy eating. The introductory consultation is followed by two others, which allow to review the results and adjust the menus.

**Blood sampling on Tuesdays and Thursdays from 7.00 to 9.00h. at the premises of Health Centre Olimia. Patients have to be fasting.*

Each further weekly menu 30,00 €**Any further consultation with a dietitian** 30 min 30,00 €**Vitamin C injection** 30,00 €**Vitamin C infusion** 80,00 €**Package 3x Vitamin C infusions** 210,00 €**Package 5x Vitamin C infusions** 320,00 €

Vitamin C plays an important role in the immune system, the formation of collagen, the normal functioning of blood vessels and bones, the nervous system, and the reduction of fatigue. Its lack may reduce the body's ability to perform those tasks. Intravenous infusion provides vitamin C intake in when lacking energy, vitality, in severe diseases and after surgery. It also helps to improve the immune system, after viral diseases and higher stress (businesspeople, athletes, students during exam periods).

The source of health of Obsotelje and well-being is thermal water, whose beneficial effects restore balance inside and outside your body. The slightly radioactive thermal water with a temperature of 30 °C to 37 °C contains magnesium, calcium, and hydrogen carbonates. It has a beneficial effect on the reduction of negative health effects and consequences of stress, relieves muscle tension and increases blood circulation of tissues. It invigorates and strengthens and accelerates the release of the happiness hormone. Try healing treatments with thermal water, guided exercises in swimming pools, drink a glass for your health or simply enjoy its flow and undulation.
